

Signum® Ex Complete Scales

Supreme SIWXSBBP | SIWXSDCP SIWXSBBBS | SIWXSDCS

Signum® Ex complete scales

- Monolithic weighing system
- Resolution up to 620,000 d
- Overload protection 300 kg
- Options for special requirements | Data communication
- IP65 protection available
- Can be used in explosive areas (certificates: IECEx | ATEX Zone 1 | 2 | 21 | 22, FM Class I, II, III Div. 1)

Signum® Ex – this outstanding, reliable product range from Sartorius offers extraordinary safety for the most stringent of requirements. Based on the established Signum scales range, the Signum® Ex guarantees high precision, reliability and durability.

With its many years of experience in scales applications for explosive areas, Sartorius is an expert in this field, which is in turn reflected in the development of our products and solutions. Signum® Ex therefore complies with all current international requirements for use in explosive areas. The following certificates are available: IECEx | ATEX Zone 1 | 21 | 2 | 22 and FM Class I, II, III Div. 1, 2.

As with all Sartorius scales, user-friendliness is the top priority. Key here is the impressively intuitive operating concept. No matter how complex your task, Signum® Ex makes it child's play, while minimising the risks of entry errors. The integrated calibration weights ensure that the scales are precise. Moreover large data volumes can be stored on the device itself, thanks to an internal product memory.

Signum® Ex is available in stainless steel or painted versions, in order to fit in with your own working processes to the best possible extent.

The corresponding display unit Signum® 3 offers a wide range of applications:

- SQ Min (minimum sample weight)
- Comprehensive functions for printing and formatting labels
- Counting
- Checkweighing
- Totalizing
- Formulation
- Classification

There are various connection options to ensure that the Signum® Ex fits seamlessly into your existing infrastructure, e.g. RS232, RS422 and RS485. To make integration into any working process simpler, the Signum® Ex standard version features a housing with protection class IP65 (IP4X for 0.6 kg version).

Signum® Ex has extensive overload protection (up to 300 kg) and high resistance to external forces such as shocks and vibrations. This makes it ideal for use in industrial environments and guarantees exact measurement results every time.

Whatever your specialist application, Signum® Ex gives you full support. With its versatile options and individually adaptable performance features, it is always the perfect choice when working in explosive production environments.

Signum® Ex – safety you can rely on.

General technical data

Material

SIWXSBBP, SIWXSDCP:
Stainless steel display unit
Platform: Industrial-strength epoxy resin coating
Colour: NCS S3502-B (RAL 7040)
Stainless steel load plate

SIWXSBBBS, SIWXSDCS:
Stainless steel 1.4301 brushed

Humidity

85% rel. (non-condensing)
up to 31°C; 50% rel. 40°C

Use at an altitude above sea level

Up to 2,000 m; inside

Weighing system

Monolithic weighing system

Resolution (not verifiable)*

SIWXSBBP | SIWXSBBBS:
Up to 620,000 d, depending on model
SIWXSDCP | SIWXSDCS:
Up to 350,000 d, depending on model

Transient emissions

In compliance with EN 61326-1, Class B
(IEC 61326-1)

Electrical safety

In compliance with EN 61010-1
(IEC 61010-1)

Interference resistance

In compliance with EN 61326-1
Industrial areas
(IEC 61326-1)

Preload

Up to 100 % of weighing area

* all non-verifiable scales come without builtin
motorized calibration weight by default

IP protection

IP65
SIWXSBBP 0.6 kg; IP4X

Net weight | Gross weight

SIWXSBBP | SIWXSBBBS: 9.0 | 10.8 kg
SIWXSDCP | SIWXSDCS: 15.0 | 18.0 kg

Packaging dimensions

SIWXSBBP | SIWXSBBBS: 570 × 400 × 370 mm
SIWXSDCP | SIWXSDCS: 510 × 440 × 410 mm

Ambient temperature

SIWXSBBP | SIWXSBBBS: +10°C to +40°C
SIWXSDCP | SIWXSDCS: -10°C to +40°C

Data interfaces

RS232
Can be switched to RS485 or RS422
Connection via 14-pin round socket

Internal alibi memory

130,000 data records

Comprehensive range of accessories

Hazardous area certification

ATEX:
II 2G Ex ia IIC T4 Gb (models without
internal motor
calibration device)
II 2D Ex ia IIIC T80°C Db (IP6x models)

IECEx:
Ex ia IIC T4 Gb (models without
internal motor
calibration device)
Ex ia IIIC T80°C Db (IP6x models)

Supply voltage

Via external power supply
Connection via 14-pin round socket
(20 cm cable)

Within hazardous area:

ATEX: YPSC01-X
FM (US): YPS02-XUR
CSA: YPS02-XKR

Outside hazardous area:

ATEX: YPSC01-Z
FM | CSA: YPS02-ZKR

Battery operation

Via external battery YRB02-X
ATEX | FM | CSA

Cable length between display unit and platform

2 m

The Signum® Ex Supreme display unit and weighing module are mechanically entirely separate and are only linked with a cable.

Flexible positioning of display unit

Can be positioned anywhere with a 2 m connection cable

Benefits:

1. Vibrations from rough movements cannot cause errors in weighing results.
2. Display unit position can be adapted to any room, allowing ergonomic working at all times.

Display unit mounted in front

Securely fixed in place with bracket

Display unit mounted above

Stand with protected cable duct and smoothly adjustable tilt angle (optional)

Options

Test report, manufacturing end test (scales)

Z3

Printer for installation in safe area (connection via YDI05-Z)

Data printer with date, time and statistics program	YDP20-OCE
Strip/label printer, 60 mm paper width	YDP04IS-OCEUV
Strip/label printer, 108 mm paper width	YDP14IS-OCEUV
Thermal transfer printer, 108 mm paper width	YDP14IS-OCEUVTH

Mechanical accessories

Stand for BBP model, aluminium, height 400 mm	YDH02P
Stand for BBS model, stainless steel, height 400 mm	YDH02S
Stand for DCP model, aluminium, height 500 mm	YDH01P
Stand for DCS model, stainless steel, height 330 mm	YDH01CWS
Stand for DCS model, stainless steel, height 500 mm	YDH02CWS
Stand for DCS model, stainless steel, height 750 mm	YDH03CWS
Wall bracket for display, stainless steel	YDH01CIS
Wall bracket for display, stainless steel, tilting indicator	YDH02CIS
Kit for switch panel mounting	YAS03MI

Miscellaneous

Round socket for creating your own cable harness, 14-pin, IP65	69Y03166
